

## **NATIONAL SPACE DAY**

National Space Day in India is observed on **August 23** every year to commemorate the historic soft landing of **Chandrayaan-3** on the moon in 2023. This day marks a monumental milestone in India's space exploration journey and is celebrated across the nation through seminars, exhibitions, competitions, and awareness activities that inspire scientific curiosity among students and youth.

The theme for the **first National Space Day in 2025** was: **“Aryabhatta to Gaganyaan: Ancient Wisdom to Infinite Possibilities.”**

This theme highlights India's rich legacy in astronomy—honoring ancient scientific knowledge—while celebrating modern achievements such as Chandrayaan, Mangalyaan, and the Gaganyaan human spaceflight mission. It symbolizes the bridge between India's scientific past and its ambitious space-faring future.

A total of **47 Cadets (27 SDs & 20 SWs)** from **Sardar Patel College 3/1 Coy, 1 (Telangana) Battalion, Hyderabad Group, AP & T NCC Directorate** actively participated in the National Space Day celebrations held at the college premises on **23-08-2025**.
