

Rock Climbing Training Camp – 2024

The **Rock Climbing Training Camp (RCTC)**, organized by the **National Cadet Corps (NCC)**, aims to equip cadets with the fundamentals of rock climbing while nurturing their adventurous spirit. During the camp, cadets are trained in various techniques such as **rappelling, jumaring, and artificial wall climbing**. They also climb natural rock formations, participate in night treks through forest areas, and visit important locations such as temples and ropeways.

The camp helps cadets build **mental toughness, resilience, and survival skills** required to face challenging environments.

LCPL K. Sai Kumar from our college attended the Rock Climbing Training Camp held at **Gwalior** from **16th to 27th October 2024**.
