

## World Sickle Cell Awareness Day – 2025

**World Sickle Cell Awareness Day**, observed every year on **June 19th**, aims to educate the public about **Sickle Cell Disease (SCD)**—a genetic blood disorder that affects millions of people worldwide. The NCC (National Cadet Corps) actively supports this cause by spreading awareness and encouraging early detection and preventive care.

NCC Cadets from **Sardar Patel College** participated enthusiastically in awareness activities with a total strength of **33 cadets** (21 SDs and 12 SWs). The cadets organized awareness programs, took part in screenings, and shared important information about Sickle Cell Disease with students and the community.

The program was **conducted on 08/07/2025** on the college campus.
